Staying Well Plan (My Crisis/Safety Plan)

Do you have a current Advanced Care Plan or Recovery Plan? Y/N

If yes, state where it is

If I am beginning to feel unsafe/unwell I may... (Please record what may happen if you go into crisis, does your sleep pattern change? Does your mood change? What has happened in the past?)

What can I do to stay safe and well? (Include agreed interventions, coping strategies and distraction techniques where appropriate)

What can others do to help me during a crisis and prevent hospitalisation? (Include Carers involvement, access to services, including names and telephone numbers and 24 hour support where appropriate)

If I require admission I would like the following practical support (please record what the indicators would be, the purpose of the admission, where I would like to be admitted and any practical needs that need to be taken care such as childcare/dependents/pets in the event of hospitalisation)

I will know I am ready for discharge when (What will I be doing? Feeling? Noticing?)
